

Careers Education, Information, Advice and Guidance

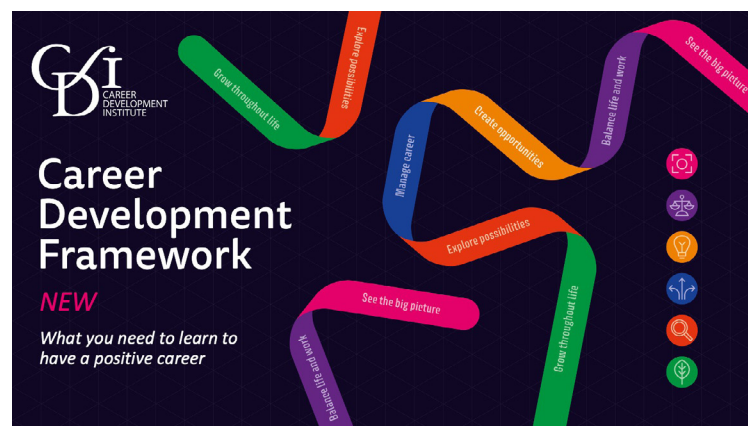

“It’s never too early or too late to start thinking about your future!”

Our Approach

Excellent careers guidance ensures equality of opportunity for all. It unlocks potential and transforms outcomes for people of all ages. Gloucestershire College works on a culture of having the right advice, in the right place at the right time. Working in partnership with our specialist career professionals and employers to ensure you understand the opportunities and choices that are available to you.

Gloucestershire College will support you by providing impartial information, advice and guidance to help you understand the routes into work, progression into higher education, technical education and apprenticeships and support you to relate your new found knowledge and experience to your future career.

Our careers and student development programme is based on the Career Development Institutes (CDI) framework of learning areas.

To ensure a quality service to all our students, including adults, the college recognises the importance of working closely with external agencies such as The National Careers Service to utilise referral routes for additional support.

There are 8 clear benchmarks that define high quality careers education and improving student transition from school to work by identifying routes to a successful working life. Our career education offer has been mapped to these 8 Gatsby benchmarks and the best practice identified throughout the sector.

Further information is available at www.goodcareerguidance.org.uk

If you are an employer and would like to find out about opportunities to engage with our careers programme or offer work placements please contact employability@gloscol.ac.uk

Our resources

We offer many career opportunities and resources to students, parents and carers which are designed to support decision making. Many staff and areas of the college come together to provide the quality careers education programme that we offer. High quality careers education and guidance is a collective responsibility of the organisation and therefore cannot be delivered in isolation.

The careers area of the web site will identify resources to support students and parents to source essential impartial advice and guidance in addition to that offered as part of the programme of study [click here](#).

The campus Student Hubs offer a range of resources to enhance the learning experience and develop work skills including:

- Access to impartial advice and guidance from qualified professionals
- Support from the student development team
- Employment coaching
- Work experience and volunteering activities
- Details of local job opportunities

The campus Libraries offer a range of resources to further develop and research careers, higher level studies and progression opportunities including:

- Written careers materials
- Higher education research material
- Digital careers resources on the VLE for existing students
- Knowledgeable library staff

Evaluation of the careers programme

We strive to continually improve our careers education programme and measure our success by evaluating:

- Destinations of students after their course
- Number of students who access the services on offer
- Student feedback after careers appointments, personal development sessions and adviser interventions
- Student outcomes as part of the Self-assessment process
- Annual report to governors on careers and employability
- Annual audit of careers provision using Compass tool
- Matrix accreditation
